SUMMARY

Accomplished Senior Software Developer and Scrum Master with 3+ years of expertise in Java, Spring, and JavaScript. Proven ability to deliver scalable, secure CMS solutions supporting 150,000–200,000 monthly users, driving improvements in performance and user experience. Skilled in Agile methodologies, WCAG compliance, and leading high-performing teams to achieve critical milestones.

EXPERIENCE

Senior Software Developer — Penbay Technology Group

March 2023 - Present

- Architected scalable backend services for a custom CMS and website (150,000–200,000 users) using Java, Spring MVC, Hibernate, RESTful APIs, and PostgreSQL/Oracle, driving continuous enhancements to performance, reliability, and feature delivery.
- Led a team of five to consolidate 20+ publication templates into a unified metadata system, reducing QA time by 30% and standardizing agency branding.
- Ensured 100% WCAG/Section 508 compliance for ~90 congressionally mandated publications annually, enabling accessible charts, tables, and downloads.
- Modernized CMS frontend with Spring MVC, Thymeleaf, and JavaScript, replacing AngularJS to enhance UX and eliminate security vulnerabilities.
- Engineered an in-browser spreadsheet component using Java, Thymeleaf, and JavaScript, streamlining HTML table editing and content workflows.
- Empowered 18 team members as Scrum Master, optimizing Agile processes to boost sprint efficiency by 20%.
- Led comprehensive code reviews and pull requests across the CMS codebase, leveraging JUnit, Mockito, and Selenium to secure 100% test coverage on new features and cut defects by 15%.

Software Developer — Penbay Technology Group

April 2022 - March 2023

- Developed a full-stack CMS using Java, Spring, REST APIs, AngularJS, and Apache Lucene, enhancing functionality for 150,000+ users.
- Engineered a permissions and roles system, simplifying development/QA by 20% and strengthening security.
- Mentored junior developers, earned Scrum Master certification, and resolved 150+ Jira tickets to optimize performance and accessibility.

Master Chief Petty Officer (E-9) — United States Coast Guard

April 2002 - July 2022

- Advanced to E-9 rank 8 years ahead of peers, leading a 40-person team (2017-2022) through 350+ high-stakes missions annually, skills now driving software team success.
- Shaped national policy on an advisory council (2018–2021), optimizing processes, expertise leveraged in software workflow improvements.
- Designed training for 80 personnel (2013-2017), increasing qualifications by 40%, now enhancing developer mentorship.
